

Arda Gürel

Geneticist | Photographer | Aspiring Data Scientist

About Me

Master's degree in Molecular Bioengineering from Dresden Technical University. Speaking English and German. Research experience in cancer, and tissue engineering fields. Currently working as a clinical research coordinator within the Düzen Laboratories Group. Improving my coding and data science skills.

Work Experience

Clinical Coordinator at Düzen Laboratories Group

Mar, 2020 - Present

Managing clinical research projects and sponsored patient support programs. Analyzing the cumulative data and creating reports.

Moderator at Arvato Bertelsmann

May, 2018 - May, 2019

Editing content in English and Turkish.

Researcher at Corbeil Lab / BIOTEC

Jan, 2011 - May, 2013

Completed the cell culture and staining experiments necessary for my masters' thesis in Corbeil lab.

Education

Masters in Molecular Bioengineering from Dresden Technology University

2015 - 2017

My thesis subject was the existence of primary cilia in anchorage-dependent epithelial cancer and leukemia cells.

Bachelor of Genetics and Bioengineering from Yeditepe University

2011 - 2015

My thesis subject was optimization of porous sponge cell-scaffolds to be used in tissue engineering applications against neurodegenerative diseases.

Science Studies from İstek Atanur Oğuz Lisesi

2007 - 2011

Studied with success scholarship.
